Lillian Berberich

BRIDGE PROFILES

by Twila Lee

Douglas W. Phillips is a 23-year-old engineer trainee from Arlington, working in Mr. Lundin's section.

Doug graduated from Virginia Tech with a degree in civil engineering. His hobbies include athletics, hunting, playing horse-shoes, and listening to stereo tapes.

Doug's mother was in the girl air traffic control during World War II. He acquired an interest in flying, and now is working towards his private pilot's license.

Although born in Virginia, Doug was reared in California and wants to go back there for a visit. Because military service appears to be imminent for him, he smiles and says, "Maybe the Army will pay for the trip."

James W. O'Neal joined the Department last March as a bridge design draftsman. Before that, he worked for the Mobil Chemical Co., the Allied Chemical Corp., the Newport News Shipbuilding and Dry Dock Co., and the Norfolk & Western Railway. During World War II and the Korean War, he served in the Navy.

He and his wife, the former Annabelle Riggins, of Poquoson, have been married since 1955 and have lived in Henrico County for the past ten years. Jim enjoys baseball, football, and working around the house with his wife.
